## The Experts

### Yanos Michopoulos

Yanos Michopoulos has 25 years international business experience in a variety of roles across the EMEA region in both the private and public sectors, especially in energy, infrastructure and private equity. He has managed large P&Ls, has been a member of regional and global leadership teams of large corporates and has managed large, distributed teams across countries and cultures. He is currently active as a business advisor and management consultant in the areas of strategy development and implementation, value creation, international expansion, M&A and change management.

### Annkathrin Rabe

Annkathrin Rabe is a renewable energy expert with almost a decade of experience in the energy industry. Annkathrin is an Originator for the Norwegian company Statkraft Markets GmbH, structuring green power contracts for industry partners. Before, she worked for innogy SE as PPA manager and market analyst as well as for the international business consultancy Accenture and the World Economic Forum. Besides her day job, Annkathrin is Chair of the Young Energy Professionals network of the World Energy Council, Future Energy Leader-100 and Board member of the Hertie Energy and Environment Network (HEEN). Annkathrin holds a Master of Public Policy from Hertie School of Governance and a Bachelor in European Studies from Maastricht University. Her passion is to grow renewable energy by supporting corporates to source green power and to empower young energy professionals to take an active role in shaping a sustainable energy future.

### Tassos Vlassopoulos

Tassos Vlassopoulos is a strategic Growth Executive with 28 years of international experience in Oil & Gas and Power Generation, including renewable energy and energy transition. He has held senior management positions in large corporates, led and executed corporate strategies, and has proven to lead high performing cross-functional teams in complex matrix organisations. He has managed 'Growth Boards', advised innovation teams, and has built commercially aligned teams to optimise market intelligence, strategic and product marketing. He is active in global team leadership and change management, commercial leadership, product and services leadership, and financial management.

### Christos Kolliatsas

Christos Kolliatsas is senior leader in the Renewable Energy world, currently Global head of Renewables at [SGS](#) and has over 15 years of experience in the renewables sector. He's a world expert on Wind Energy, specialised in Offshore wind since it has many similarities with oil & gas, and has been board member of the European Wind Energy Association.
